Lab Report: Image classification experiments

1 Introduction

In this report we compare several models on standard benchmarks. All experiments were run on a single GPU with 16 GB of memory. We trained each model for 20 epochs with a batch size of 128.

2 Results

Figure 1 shows the training loss.

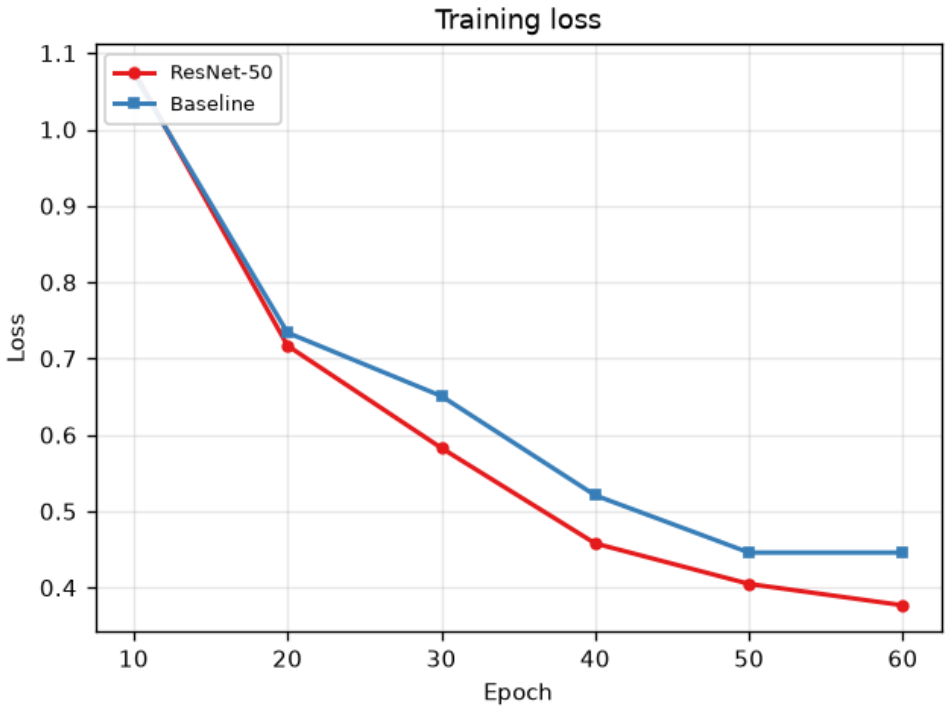

Figure 1: Training loss for the models in this experiment.

At epoch 50, the loss of ResNet-50 is 0.020 (Figure 1). At epoch 20, the loss of ResNet-50 is 0.871.

Figure 2 shows the training loss.

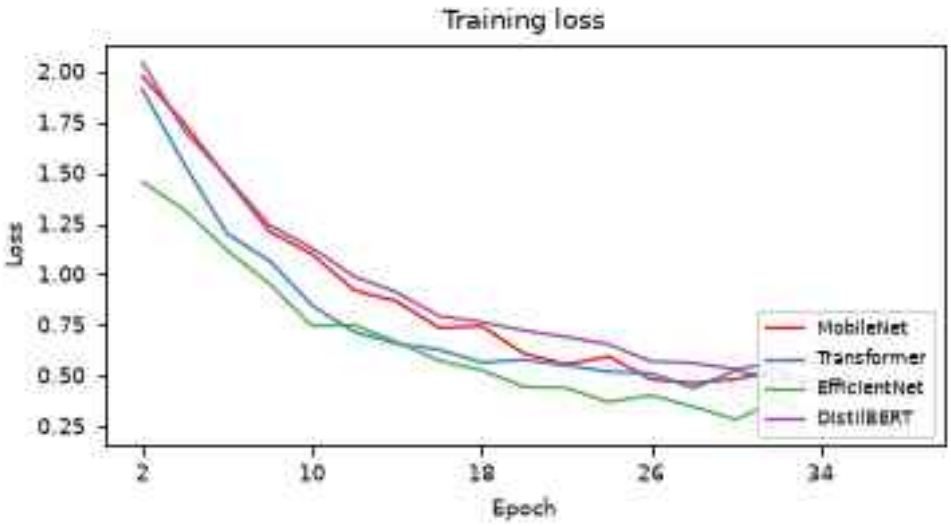

Figure 2: Training loss for the models in this experiment.

At epoch 2, the loss of Transformer is 1.91. At epoch 28, the loss of EfficientNet is 0.743. At epoch 8, the loss of Transformer is 1.066 (Figure 2). As shown in Figure 2, at epoch 6, the loss of EfficientNet is 1.118.

3 Discussion

Overall, the results are in line with what we expected from the literature.
